SENATOR DECAMP: No, when you add it all up, I'm sure it would not be additional there.

SENATOR WHITNEY: OK, thank you.

SENATOR DECAMP: Probably a cut.

PRESIDENT: We're still on the amendments found on page 940. Any further discussions? Senator Duis.

SENATOR DUIS: Mr. President, I would like to make a suggestion here and if necessary I'll make a motion. When and if these amendments are adopted, then I would like to have the bill taken on General File a section at a time, because I believe the Clerk should read it a section at a time. I ask for any amendments to that particular section. It's going to be necessary to have somewhat of a knowledge of what's in it and I know I've attended a seminar or two and tried to get some knowledge on it, but sometimes the seminars have a way of being poor that particular side. But I do believe we should use this white copy if the amendments are adopted because that will be the Legislative Bill if the committee amendments are adopted.

PRESIDENT: Alright, we apparently have more input coming here. Senator Carpenter?

SENATOR CARPENTER: Well now when you say discuss section by section. How many sections are there? 350. Now, in this 350, aren't there sections that don't require any discussion? All I'm trying to arrange, if this is possible. I realize both sides are very intense in their beliefs. And for the most part, they're basically people who practice law. Not all, but for the most part. Now, what I'd like to do is I have some agreement on the area of not time, but discussion so that we do not read each section which Senator Duis can bring about if he so desires. I don't think he has a desire just to delay

the bill. At least I hope he does not have.

PRESIDENT: Senator Duis?

SENATOR DUIS: I don't have that desire, but I'm also not interested in the two sides that are fighting over the bill. I'm interested in myself and possibly anyone else who would like to understand the bill, and I'm not going to understand this bill by a quick resume.

SENATOR CARPENTER: Well you probably will be. You and Senator Carsten. As we come to these sections, if they don't require any discussion in the judgment of you and others in a like position. Are you adverse to just passing that section over then?

SENATOR DUIS: I do certainly believe that it doesn't take very long to read the section and then a person would know whether or not it takes any discussion. We can go right on from there. I don't certainly plan to discuss each section, but I would like to have it brought to my attention more forceably than it has been section by section rather than going to a seminar and having somebody tell me the entire contents of the bill and a few choice words. And I do believe
